## PROFESSIONAL SUMMARY

Computer Science undergraduate at Olabisi Onabanjo University with hands-on experience in frontend web development, Java programming, and digital services. Experienced in building web-based projects using HTML, CSS, and JavaScript, as well as developing a Java-based Student Results Management System using Object-Oriented Programming and file handling. Also experienced in customer-facing digital services through cyber-café work and student operations coordination. Interested in frontend development, data analytics, and software engineering, with a focus on building practical and user-friendly digital solutions.

## EDUCATION

**Olabisi Onabanjo University, Ago-Iwoye, Ogun State**
**B.Sc. Computer Science** | 2023 – 2027

## TECHNICAL SKILLS

### Programming & Development

- Java
- HTML5
- CSS3
- JavaScript
- Object-Oriented Programming
- File Handling
- Responsive Web Development

### Tools

- Git & GitHub
- IntelliJ IDEA
- Visual Studio Code
- Microsoft Office
- Google Workspace

### Professional Skills

- Problem Solving
- Customer Service
- Communication
- Team Collaboration
- Organisation
- Digital Support

## PROJECTS

### Student Results Management System

**Java | Object-Oriented Programming | File Handling**

- Designed and developed a Java application for managing student and teacher records and academic results.
- Implemented separate student and teacher management functionality with unique identification and record handling.
- Built result-entry functionality with subject scores, average calculation, and automatic grade evaluation.
- Implemented student search and result viewing features to make academic records easier to retrieve.
- Used Object-Oriented Programming principles including inheritance, encapsulation, classes, objects, and methods to structure the application.
- Implemented file handling to save and retrieve student, teacher, and result records between application sessions.
- Developed, tested, and debugged the application using IntelliJ IDEA.

**Kikkes Scents — Brand Website**
**HTML | CSS | JavaScript**

- Designed and developed a product-focused website for Kikkes Scents, a home-fragrance brand.
- Created a structured product catalogue concept for room sprays and other fragrance products.
- Developed clear product sections to present scent collections, product sizes, and pricing information.
- Applied HTML and CSS to create a clean, responsive, and visually organised interface.
- Added interactive functionality with JavaScript to improve the user experience.
- Structured the website with a focus on simple navigation and clear product presentation for potential customers.

**Personal Portfolio Website**
**HTML | CSS | JavaScript**

- Designed and developed a personal portfolio website to showcase technical skills, projects, and professional experience.
- Created dedicated sections for projects, skills, education, and professional information.
- Applied responsive design principles to improve usability across different screen sizes.
- Used JavaScript to add interactive elements and improve the overall browsing experience.
- Integrated project work, including Kikkes Scents and the Student Results Management System, into a professional online portfolio.

---

## EXPERIENCE

**Software Industrial Training (SIWES) — Frontend Development**
**DBrowns Tech Hub, Nigeria**
**13 July 2026 – 2 October 2026**

- Completed practical training in frontend web development using HTML, CSS, and JavaScript.
- Built and styled web interfaces with emphasis on structure, responsiveness, usability, and visual presentation.
- Applied frontend development concepts through practical assignments and personal projects.
- Practised writing, testing, debugging, and organising frontend code using Visual Studio Code.
- Developed practical understanding of how frontend technologies work together to create interactive web experiences.

**Software Industrial Training (SIWES) — Java Development**
**DBrowns Tech Hub, Nigeria**
**7 July 2025 – 26 September 2025**

- Completed practical training focused on Java programming and Object-Oriented Programming.
- Developed a Student Results Management System as the major practical project.
- Applied classes, objects, inheritance, encapsulation, collections, methods, and file handling in application development.
- Implemented functionality for managing student and teacher records and processing academic results.
- Used IntelliJ IDEA to write, test, debug, and organise Java applications.

**Cyber Café Assistant**
**Cyber Café, Nigeria**

- Provided customers with computer and internet-related support for everyday digital tasks.
- Typed, edited, formatted, printed, scanned, photocopied, and organised documents for customers.
- Assisted customers with online registrations, applications, form submissions, and other internet-based services.
- Helped customers navigate websites and complete digital processes when required.
- Provided basic computer assistance and resolved common issues during customer use.
- Managed multiple customer requests while maintaining accuracy and efficient service.
- Gained practical experience in customer service, digital operations, document management, and computer usage.

---

## LEADERSHIP & TECHNOLOGY COMMUNITY EXPERIENCE

**Student Operations Coordinator**
**Chicago Digital Academy**

- Coordinated communication between facilitators and students across multiple technology training programmes.
- Supported the organisation and smooth delivery of student learning activities.
- Assisted with student communication, scheduling, and coordination of training sessions.
- Worked across Web Design, Web Development, and Cybersecurity programmes.

**OOU Tech Community**
**Technology Community & Partnership Support**

- Supported partnership outreach and professional communication for technology-community initiatives.
- Assisted in preparing partnership letters and outreach materials for prospective organisations.
- Contributed to planning and communication activities for **Builders Arena 2026**, a two-day physical student hackathon focused on technology, innovation, and problem solving.
- Supported initiatives connecting students with technology, entrepreneurship, and innovation opportunities.

---

## CERTIFICATION

**Queen of Web — HTML & CSS**
October 2023

---

## AREAS OF INTEREST

Frontend Development • Data Analytics • Software Engineering • Web Technologies • Technology & Innovation
